PHILOSOPHY, GOALS AND OBJECTIVES

The Morehouse Parish School Board hereby sets forth and establishes the following statements as a philosophical foundation for the public schools of Morehouse Parish. Each school unit in the parish is expected to develop a school philosophy which considers community needs and which incorporates the basic educational beliefs enumerated in this document. The desired effect of this document is to produce for all to see, a concrete listing of the beliefs which shape the policy and programs of the Morehouse Parish School Board:

1. We believe that every child has worth and should be treated with dignity.
2. We believe that every child is a unique being and that each is endowed with unique abilities and disabilities.
3. We believe that the major functions of schools are three:
 - (a) Discover the abilities and disabilities of each child
 - (b) Minimize the effects of disabilities
 - (c) Maximize the value of unique abilities
4. We believe that there is a need for each child to develop physically, academically, socially, emotionally, and spiritually if he is expected to be a productive citizen.
5. We believe that the proper development of children physically, academically, socially, emotionally, and spiritually rests upon and depends upon the complementary efforts of schools, the family, and the church.
6. We believe that teachers should be held accountable for teaching and that children should be held accountable for learning.
7. We believe in the basic education of children, having observed that a child cannot advance in any direction towards the frontiers of knowledge without the fundamental skills of communication--reading, writing, spelling, as well as other elements of effective oral and written expression; the arithmetical and mathematical skills, including problem solving.
8. We believe that in schools, as in society, rules made for the "common good" are necessary and that every student should be held accountable for adherence to those rules.

9. We believe that every student has a basic right to study in an atmosphere free from danger and disruption, and we believe that all students and all educators are accountable for the maintenance of that atmosphere.
10. We believe that every student should be held accountable for regular attendance in school.
11. We believe that every student should be included in a guidance program beginning at the date of entry into school and continuing to follow after he leaves school.
12. We believe that schools and school officials should reasonably expect that each student would be supported by parents who care, provide moral training and the development of healthy self esteem.
13. We believe that co-curricular activities should be developed and utilized to provide opportunities for students to apply classroom experiences and knowledge to problems in the outside world.
14. We believe that extra-curricular activity should be utilized to stress the development of specific traits not easily developed in the classroom setting. We believe that some of the most important of these are sacrifice, tenacity, competition, teamwork, and responsibility.
15. We believe that both co-curricular and extra-curricular activities can and should bear out time honored beliefs such as:
 - (a) Practice makes perfect
 - (b) Rewards are the result of effort
 - (c) Individuals working together can produce results which exceed the sum of the individual contributions
 - (d) Leadership roles are earned by performance
 - (e) Defeat or rejection can motivate one to greater effort
 - (f) Ordinary is separated from extraordinary by limits of spirit more often than by physical or mental limitations
16. We believe that every student should be developed toward a career choice which will insure an adequate income and a sense of contribution to society.
17. We believe that vocational education is a viable choice for many students and a choice which should result from surveying the student's abilities and developing those abilities.

18. We believe that there are no unworthy positions in society and we reject the notion that unworthy persons should fill unworthy positions.
19. We believe that the diversity of abilities in our country is complementary to the diversity of our needs as a people.
20. We believe that good leaders can be developed and that before one can be a good leader he must be a good follower.
21. We believe that no institution is more vital to the continuance of our society than the family unit and that the strengthening of that unit is a prominent goal of our school system.
22. We believe that substance abuse in its many forms is a great threat to our society and that we should work constantly for the reduction and eventual elimination of that problem.
23. We believe that, in spite of its imperfections, our nation offers hope, freedom, and opportunity on a scale that sets the pace for the remainder of the world. We believe that every student should recognize the blessings related to being a citizen.

To achieve these objectives for every child the public schools of Morehouse Parish must provide:

1. Attractive, safe, and stimulating environments for the learning experiences of the students.
2. An effective program of guidance and counseling in preparation for the world of work.
3. An appropriate balance in the educational program that will provide stimulation and development of the useful talents of all children.
4. Balanced courses in the social sciences to develop in the students a better appreciation of the advantages of our democratic way of life.

The Morehouse Parish School Board further recognizes and accepts the responsibility to cooperate with other appropriate institutions and agencies toward enriching the lives of its students and to meet the need for a continuing growth and development of its educational system to keep pace with the economic, social and moral implications resulting from modern advances in technology and science.

BOARD FUNCTIONS

Three functional activities are recognized with respect to the Morehouse Parish School Board's administration of public education in the parish.

1. Policy-making is the function of the board, which determines what shall be done, establishes procedures of accomplishing the tasks, selects an executive officer and delegates to him authority for placing the plans and procedures into operation. It is a primary function of the board to provide the financial means to accomplish the objectives. School Board members are the people's representatives in the school program and they function as a board and not as individuals. The board member as an individual has no authority; his/her vote along with the votes of the other members give direction and authority for administration.
2. Executive. The execution of the policies established by the board is the responsibility of the superintendent. As the executive officer of the school system, the superintendent is concerned with placing into operation the plans and policies, keeping the Board informed, and furnishing professional leadership to the school system.
3. Appraisal is the function of the board to carefully examine facts and issues thereby establishing policies for:
 - (a) The efficiency of operation of the administration in terms of carrying out board policies and procedures.
 - (b) The worth and result of the activities in relation to the efficiency and value of instruction.

INTERNAL ORGANIZATION OF BOARD

Each school board is authorized by law to make such rules and regulations for its own government, not inconsistent with law or with rules and regulations of the State Board of Elementary and Secondary Education, as it may deem proper.

EXECUTIVE SESSIONS

The Board may hold executive (closed) sessions for specific purposes as authorized by Louisiana Law.

SMOKING AT BOARD MEETINGS

Smoking at Board meetings by members of the Board or anyone in attendance at the meeting is prohibited.

BOARD POLICY DEVELOPMENT

It is the intent of the Board to develop policies and put them in writing so that they may serve as guidelines and goals for the successful and efficient functioning of the Morehouse Parish Public Schools.

The Board considers policy development its chief function, along with providing the wherewithal such as personnel, building, materials, and equipment for the successful administration, application, and execution of its policies.

The Board accepts the definition of policy set forth by the National School Boards Association:

Policies are principles adopted by the School Board to chart a course of action. They tell what is wanted; they may include why and how much. Policies should be broad enough to indicate a line of action to be followed by the administration in meeting a number of problems; narrow enough to give clear guidance. Policies are guides for action by the administration, who then sets the rules and regulations to provide specific directions to school district personnel.

It is the Board's intention that its policies serve as sources of information and guidance for all people who are interested in, or connected with, the Morehouse Parish Schools.

The policies of the Board are framed, and are meant to be interpreted, in terms of Louisiana laws, rules and regulations of the State Board of Education, and all other regulatory agencies within our local, parish, state, and federal levels of government. The policies are also framed, and are meant to be interpreted, in terms of those educational objectives, procedures, and practices which are broadly accepted by leaders and authorities in the public education field.

Changes in needs, conditions, purposes, and objectives will require revisions, deletions, and additions to the policies of present and future boards. The Board will welcome suggestions for ongoing policy development.

Any addition of, deletion of, or amendment to a policy must be presented in writing for consideration at a regular School Board meeting. The Board will consider the new policy as presented and then will vote on that policy as a “first reading” only. The policy will then be presented again to the Board at its next regular meeting at which time a vote will be taken to determine whether or not the new policy will be officially adopted. The interim period allows for both input from the staff and community and proper reflection by the members of the Board prior to implementation of a new policy.

CODE OF ETHICS FOR SCHOOL BOARD MEMBERS

Recognizing that as a member of public school board I am filling a position of public trust, responsibility, and authority endowed by the State of Louisiana, I hereby subscribe to the following principles by which a school board member should be guided.

I

My allegiance is first to the children of my parish school system and not to any political party or business organization.

II

I will not seek through my office special privileges or private gain, nor will I use my position to promote my business or professional interest.

III

I will seek to provide equal educational opportunities for all the children regardless of race, creed, or location.

IV

I recognize that it is my duty to assist in formulating educational policy. However, I recognize that it is the duty and responsibility of the superintendent in his capacity as executive officer to see that these policies are carried out.

V

I understand that in the selection of teachers and all other school personnel the superintendent nominates candidates for these positions and selections by the Board is made from such nominations based on merit alone. I will not bring pressure on the superintendent to nominate candidates in whom I have special interest. I will insist that the Board reserve to the superintendent the privilege and responsibility of nominations of candidates for school personnel. I recognize that the training of the child is paramount and that giving employment is a secondary matter.

VI

I understand that I have no authority as an individual board member but must act with and through the Board as a whole, and I must be governed by the decisions of the Board.

VII

I will keep myself as well informed as possible about the conditions in the school system and about such other matters as will help me serve as an efficient school board member.

VIII

Understanding that I am a representative of the public, I will endeavor to keep the public informed about the progress and needs of the schools.

IX

I will refrain from making any commitment upon any subject which rests within the School Board's authority for final discussion and decision.

X

Recognizing that all school personnel should work in close cooperation, I will give my hearty support to the total school program. I will not publicly criticize school personnel but will make such criticism to the superintendent for investigation and action if necessary.

XI

Recognizing that the superintendent is the executive officer of the school system, any recommendations and complaints that may have been submitted to me shall be referred to the superintendent for presentation to the Board.

XII

I will affiliate with my professional organization, the Louisiana School Boards Association, and as far as possible will attend the convention and take part in its activities.

XIII

Recognizing that the expenditure of public funds is a public trust, I will endeavor to see that all public funds shall be expended efficiently, economically, and for the best interest of the schools.

XIV

With a basic belief in the dignity of the individual, I will respect teachers, as a Board member I will not subject their daily lives to harsh or petty restrictions which I would not impose on other good citizens.

XV

I will attend Board meetings with an open mind and listen to what other Board members and other individuals or groups have to say before making final decisions.

XVI

I will continue my interest in the school program at all times and as an individual citizen and champion of the schools, I will guard the interests of the school. When citizens and patrons who do not know or fail to remember my limitations of authority call on me to correct some situation in connection with the school, I will not avoid the issue by denying authority but will counsel with the applicant or go with him to the superintendent for a conference in order that the problem may be solved in the best interests of education.

XVII

As the administration of the schools of Louisiana is conducted on a parish-wide basis and as my responsibility is to all of the children, I will consider the program for the whole administrative unit in making decisions. I will not try to seek special privileges for my own district.

XVIII

Recognizing the rights of the employee and the Board, I will insist on following completely the procedure stipulated by law in every case where a teacher or other employee is being tried for incompetency or other causes which might subject him to dismissal.
